

6. GLOBAL TO LOCAL LTD SUSTAINABILITY POLICY

Global to Local Limited is a sustainability consultancy committed to the principles of sustainable development. Our work involves a small team of consultants and associates advising clients on how to develop and maintain environmentally sustainable practices. Global to Local does not operate a central office, as all of our team work from home.

Within our own operations we intend to:

- ◆ Implement an EMS that meets requirements of ISO14001:2004 and regularly review it in order to continually improve our environmental performance;
- ◆ Minimise our own resource use. Reduce energy use, water use, waste generation through good house-keeping, re-use, developing renewables and recycling, and reducing non-essential travel; thereby preventing pollution that may result from our activities;
- ◆ Minimise the purchase of harmful substances which damage health and the environment;
- ◆ Comply with all applicable environmental legislation, regulations and other policies which we subscribe to;

Through the work that we do in giving advice to private and public organisations, Global to Local will seek to maximise our influence and encourage more sustainable practices by:

- Working with our clients to develop paths to more sustainable practices and identifying best environmental practice;
- Pursuing solutions that improve quality of life and deal with social and economic inequity;
- Ensuring that biodiversity and the physical basis for life are not undermined;
- Assisting clients in networking, partnership building and engaging with the public to help develop sustainable solutions.
- Continuously developing our expertise and knowledge through targeted CPD and training.

This sustainability policy shall be communicated to all employees, contractors and sub-contractors, temporary staff and remote workers and made available to the public through Global to Local's website and on request.

Revision Approved by the Board of Global to Local Limited on 15th October 2012

Signed and Sealed on behalf of the Board on 15th October 2012
