

section three recycledmaterials

What It Includes

This section includes new and innovative products which can help to reduce our carbon footprint by ensuring that we buy items made from recycled materials, thus obviating the need to create new materials from scarce resources. It covers the following products:

- **Outdoor furniture**
- **IT consumables.**

Sustainable Procurement Task Force

In 2005 the Government stated its intention in its Sustainable Development Strategy of putting the UK amongst the EU leaders in sustainable procurement.

To this end the Sustainable Procurement Task Force identified 10 high priority areas out of 174 Government spending areas. Two of these were furniture, and consumables – office machinery and computers.

In this part of the catalogue we offer a range of products that help reduce the need to procure non-renewable materials.

Products featured in the **recycled**materials section comply with requirements, where applicable of these associations:

Blue Angel accreditation

Nordic Swan accreditation

WRAP endorsement

recycled materials

Outdoor furniture

Outdoor furniture: a range of outdoor furniture including outdoor seating and tables, picnic tables and planters made from recycled plastic.

How We Specified

- Products are not coated, labelled or treated in any way which would prohibit further recycling
- Endorsement by WRAP or equivalent
- Guaranteed for at least 10 years
- Do not contain the polybrominated chemicals PBB and PBDE (which can result in potentially adverse health effects if ingested) or polyurethane propelled by means of halogenated organic propellants

How Green is outdoor furniture?

Outdoor furniture made from recycled plastics makes it endlessly recyclable, thus reducing the need for land fill. It has the appearance of wood, but has all the advantages of staying attractive and easy to maintain for many years.

Description and Pricing

Descriptions are given to distinguish different types of outdoor furniture. Prices are specified for individual items. Recycled plastic furniture offers strong and durable products which are very vandal-resistant. Although many of the designs lack the elegance of working with natural materials such as wood, they are suitable for a wide range of uses, and are particularly appropriate for park benches, fencing, picnic tables and other similar applications.

C Junior Countryside™ Seating Range

The **Junior Enviropol® Countryside** range has been carefully designed to suit children's seating requirements. Seat, Picnic Table and Bench options are available. Manufactured in tough Enviropol®, 100% recycled material with metal end-supports. Enviropol versatile landscaping material comprises reclaimed and recycled mixed plastics and includes low and high density polyethylenes and polypropylene. **Colours:** Black or Brown Enviropol slats. Black polyester powder coated metal seat end-supports. **Seat Specifications:** Length: 1790mm, Depth: 430mm, Seat Height: 372mm, Overall Height: 562mm, Weight: 52kg. Supplied fully assembled for immediate use. **Bench Specifications:** Length: 1790mm, Depth: 306mm, Seat Height: 372mm, Weight: 30kg. Supplied fully assembled for immediate use. **Picnic Table Specifications:** Length: 1790mm, Depth: 1006mm, Seat Height: 372mm, Overall Height: 610mm, Depth of Table Top: 450mm, Weight: 98kg. Supplied fully assembled for immediate use. **Fixing option:** We strongly recommend ground fixing where possible. - Ground fixing kit. - Concrete-in below ground anchor. **Optional Extra:** Tamper resistant caps for ground fixing bolts.

Junior Bench	each £154.40
Junior Seat	each £222.03
Junior Picnic Table	each £305.43
Ground fixing	each £11.18
Concrete-in	each £19.22

Prices are nett, (excluding VAT), supply only. Carriage included on orders exceeding £50.

A Countryside™ Bench

Countryside Bench is manufactured in tough Enviropol® 100% recycled material. Enviropol versatile landscaping material comprises reclaimed and recycled mixed plastics and includes low and high density polyethylenes and polypropylene. Enviropol material is ideal for any outdoor environment as it is unaffected by sunlight and can withstand the severest of weather conditions without regular maintenance.

Enviropol material is maintenance-free and needs no surface treatment to maintain its weather-resistance. The vandal-resistant, robust design of **Countryside Bench** has no sharp edges or splinters.

Ground-fixing kits are available at a small additional cost, to fix either onto concrete or paved areas or alternatively for concreting-in. (Glasdon strongly recommend ground fixing for added safety and security.)

Colours: Black or Brown Enviropol® material slats. **Specifications:** Length: 1790mm, Depth: 460mm Height: 430mm, Weight: 49kg. Supplied fully assembled for immediate use.

Materials: Vertical End Supports: Black polyester powder coated mild steel. Slats: Enviropol.

Optional Extras: Tamper resistant caps for ground fixing bolts, Stainless Steel Commemorative plaque.

Fixing options: We strongly recommend ground fixing where possible. - Ground fixing bolts. - Concrete-in below ground anchor.

Countryside Bench	each £217.22
Ground fixing	each £11.18
Concrete-in	each £19.22

B Countryside™ Seat

Manufactured in tough Enviropol® 100% recycled material. Enviropol versatile landscaping material comprises reclaimed and recycled mixed plastics and includes low and high density polyethylenes and polypropylene. **Countryside Seat** has a robust, vandal-resistant design. All slat fastening nuts have a tamper-resistant feature to prevent unauthorised removal of sections.

Enviropol material is ideal for any outdoor environment as it is unaffected by sunlight and can withstand the severest of weather conditions without regular maintenance.

Ground-fixing kits are available at a small additional cost, to fix either onto concrete or paved areas or alternatively for concreting-in. (Glasdon strongly recommend ground fixing for added safety and security.)

Colours: Black or Brown Enviropol® material slats. **Specifications:** Length: 1790mm, Depth: 632mm Seat Height: 430mm, Overall Height: 790mm, Weight: 68kg. Supplied fully assembled for immediate use.

Optional Extras: Tamper resistant caps for ground fixing bolts, Stainless Steel Commemorative plaque.

Fixing options: We strongly recommend ground fixing where possible. - Ground fixing bolts. - Concrete-in below ground anchor.

Countryside Seat	each £329.09
Ground fixing	each £11.18
Concrete-in	each £19.22

A Phoenix Jubilee™ Seat

This seat combines environmental awareness and aesthetics! With black Enviropol® seat ends and a choice of brown or black Enviropol® slats, **Phoenix Jubilee Seat** offers superb strength with minimal maintenance. The seat frame is manufactured in mild steel with an Armortec® corrosion-resistant coating to give added protection and a long service life. Supplied as standard with ground fixings.

Specifications: Length: 1970mm, Depth: 780mm, Seat Height: 460mm, Overall Height: 880mm, Weight: 107kg. Supplied fully assembled for immediate use.

Phoenix Jubilee Seat each **£510.40**

B Phoenix™ Seat

A heavy-duty seat, manufactured in tough Enviropol® 100% recycled material. Enviropol versatile landscaping material comprises reclaimed and recycled mixed plastics and includes low and high density polyethylenes and polypropylene. Enviropol material is ideal for any outdoor environment as it is unaffected by sunlight and can withstand the severest of weather conditions without regular maintenance. **Phoenix Seat** is now also available with armrests, providing added comfort.

End supports and frames available in black, with a choice of either black or brown Enviropol® slats.

Enviropol material is maintenance-free and needs no surface treatment. Phoenix Seat is weather-resistant and vandal resistant with no sharp edges or splinters. Supplied as standard with 4 bolts for fixing into concrete foundations. Other fixings and tamper proof caps for ground fixing are also available for a small additional cost.

Specifications: Length: 1790mm, Depth: 574mm, Seat Height: 428mm, Overall Height: 702mm, Weight: 75kg. Weight with armrests: 86kg. Supplied fully assembled for immediate use.

Phoenix Seat each **£346.18**

Phoenix Seat/armrests each **£377.91**

C Enviropol® Picnic Table

An attractive and functional picnic table, manufactured in tough Enviropol® 100% recycled material. For fixing into concrete foundations, concrete anchors are available at a small additional cost. Available in either black or brown.

Specifications: Length: 1450mm, Depth: 1310mm, Seat Height: 440mm, Overall Height: 750mm, Weight: 106kg. Supplied fully assembled for immediate use. Supplied as standard with ground fixings.

Optional Extra: Stainless Steel Commemorative Plaque. Tamper resistant caps for ground fixing bolts.

Picnic Table each **£366.10**

D Wheelchair Access Option

Specially designed to accommodate wheelchairs, an attractive and functional picnic table, manufactured in tough Enviropol®, 100% recycled material. Supplied complete with ground fixing brackets and bolts. Available in either black or brown.

Specifications: Length: 1675mm, Depth: 1310mm, Seat Height: 440mm, Overall Height: 750mm, Weight: 115kg.

Picnic Table each **£462.27**

Glasdon strongly recommend ground fixing for added safety and security.

Prices are nett, (excluding VAT), supply only. Carriage included on orders exceeding £50.

A Enviropol 100™ Bin

Enviropol 100 Bin is a robustly designed litter container, ideal for many external locations. Manufactured with 100% recycled Enviropol® and Durapol® materials, the bin is also 100% recyclable. ENVIROPOL 100 bin is hard wearing, durable and never needs painting. Available in either black or brown slats with black plinth and hood.

Enviropol 100 Bin each **£389.41**

B Enviropol® Bollards

Ideal for environmental enhancement schemes, such as parks and open spaces, this bollard is easily installed by concreting in. Available in two designs, with a round top or a flat top. Manufactured in tough Enviropol®, 100% recycled material.

Enviropol versatile landscaping material comprises reclaimed and recycled mixed plastics and includes low and high density polyethylenes and polypropylene. Enviropol material is ideal for any outdoor environment as it is unaffected by sunlight and can withstand the severest of weather conditions without regular maintenance.

Bollard Colours: Black or Brown Enviropol®

Banding Colours: Retroreflective banding in Red, White, Red/White. Decorative banding in Yellow, Green, Silver.

Specifications:

Round Top Bollard Height above ground: 1000mm, Depth below ground: 500mm, Diameter: 150mm, Weight: 23kg

Flat Top Bollard Height above ground: 860mm, Depth below ground: 450mm, Diameter: 150mm, Weight: 20kg

Optional Extras: - Decorative/Retroreflective banding, Personalisation.

Fixing options: Below-Ground Extended Base.

Round top bollard each **£79.40**

Flat top bollard each **£73.25**

C Fullbloom™ Hanging Planter

Fullbloom Hanging Planter incorporates the latest Hygromat™ capillary watering technology. A special reservoir helps to keep plants watered automatically, allowing air and water to reach the plant roots as required. The reservoir holds 10 litres of water and has two filling troughs which are easy to locate and use.

Manufactured from tough, high quality Durapol® material. Fullbloom planter is available as a single hanging planter or with an additional tier. The tiered planter provides unique displays, offering extra height in the middle of the arrangement.

Colours: Deep Green, Black (Black contains 100% recycled material).

Specifications:

Main Planter External Diameter: 538mm, Maximum Width: 658mm, Internal Planting Depth: 170mm, Height: 269mm, Fixing Cable Breaking Strain: Approx half a tonne.

Additional Tier External Diameter: 295mm, Internal Planting Depth: 155mm, Height (including main planter): 360mm

Optional Extras: - Decorative Gold banding, Bracket for wall mounting, Personalisation.

Fullbloom Planter each **£49.82**

Fullbloom Planter complete with extra tier each **£64.12**

D Fullbloom™ Rail-Mounting Planter

Fullbloom Rail-Mounting Planter can be easily sited by one person in under a minute! Unique, integrally moulded Kwik-Fix™ fixing lugs allow the planter to be quickly mounted on to a railing with Tamtorque® banding. (Banding is supplied as standard, a power tool bit can be supplied as an optional extra.) This provides a very tight and secure fixing, without the need for additional brackets.

Colours: Deep Green, Black (Black contains 100% recycled material).

Specifications: Max. Internal Planting Length: 1284mm, Width: 350mm, Depth: 200mm.

Maximum External Length (inc. fixing lugs): 1374mm, Width: 390mm, Height: 305mm

Reservoir Capacity: 15ltr; Weight (empty): 9kg

Optional Extras: Floor-mounting bracket, Power Tool Bit, Gold Banding.

Fullbloom Rail-Mounting Planter each **£89.95**

Power Tool Bit each **£5.71**

Gold Banding Kit each **£7.43**

Prices are nett, (excluding VAT), supply only. Carriage included on orders exceeding £50.

Marmax Products Ltd

RECYCLED PLASTIC PRODUCTS

Marmax Products Limited

High quality outdoor products made from heavy duty recycled plastic:

- Does not rot or splinter • 100% UK waste
- Delivered fully assembled • Robust construction
- Environmentally friendly • Textured surface
- Withstands damp and saline conditions
- Outlasts traditional alternatives

A Boardwalks

Recycled plastic is ideal for the damp and acidic ground conditions that can be associated with boardwalks. It is hard wearing and suits both urban and rural situations. Because of its composition it will not leach chemicals into the soil, which can be critical in environmentally vulnerable situations. Our designs use a WRAP approved roughened surface for improved grip in wet conditions. The Boardwalk is available in widths of 1200/1500 and 1800mm, which can be supplied either in flatpack or fully assembled 3000mm sections. Additional features include, handrails, toe rails, passing places, bridges and extended legs. Fully bespoke designs are also available, please contact our office for further details 01207 283442

Boardwalk 1200	each £57.00
Boardwalk 1500	each £64.85
Boardwalk 1800	each £81.24

B Planters

These planters can be used to create colourful corners and barriers between traffic and pedestrians. Square: 900 x 900 x 900mm Hexagonal: 1200mm dia. x 622mm height. Colours: Black, Brown, Blue or Green. The six sided shape adds interest to plant displays.

Large planter 900mm	each £223.68
Hexagonal planter	each £248.80

C Fencing Bird's Mouth

Particularly suitable for defining areas like car parks and playgrounds. 90 x 90 x 1000mm posts (400mm below ground) with 1500mm between posts.

Fencing posts (1000mm)	each £5.65
Fencing rails (3000mm)	each £16.95

Prices are nett, supply only (excluding VAT), Carriage included.

Case study: Cheshire Wildlife Trust Moston Community Nature Reserve

Cheshire Wildlife Trust has recently taken over an urban site at Moston, just North of Chester. The site had been used as a rubbish tip by the local community and a storage site by the highways department. The Trust called on its army of volunteers to transform this spoil land into Moston Community Nature Reserve.

Parking, footpaths and raised beds were established, a pond was created in an already damp corner and the rest of the site was divided into areas to show different wild habitats, including a small meadow, an orchard and a hedgerow. All this was achieved on a site of only one and a half acres. It now shows examples of many of the wild plants found in Cheshire and has increased breeding sites for insects and butterflies.

Marmax seating was purchased because the recycled plastic is maintenance free and environmentally friendly. Care has been taken to design the site for easy access. **Marmax benches with wheelchair access** have been included to complement the paths, raised beds and the pond dipping platform.

Education is a very important part of the Cheshire Wildlife Trust. Marmax products and the Trust can be seen working together to show that both waste material and waste areas can be reused to good effect.

Quote from Lee Greenough, Head of People and Wildlife, Cheshire Wildlife Trust

"The recycled plastic furniture needs no maintenance, arrives ready assembled and can be left to its own devices. The plastic will not react with any chemicals within the soil which might be present on the Moston site – and is vandal proof."

This is very important to us because we only have two full time members of staff to deal with the maintenance of our forty five sites and our local volunteers do not have to worry about it.

We consider it to be ideal countryside furniture."

IT Consumables

IT Consumables: A full range of recycled and remanufactured black and coloured ink jet and laser cartridges. Any cartridges included in the catalogue fully meet all required production and quality standards and do not invalidate equipment guarantees.

How We Specified

We used “Nordic Swan” criteria which included:

- Cartridge performance is at least as good as that of an Original Equipment Manufacturer (OEM)
- The average annual number of complaints about any product shall not exceed 1%
- Manufacturers have a cartridge take-back system in place
- A minimum of 75% by weight of the remanufactured cartridge consists of recycled parts
- Toner powder for laser cartridges must not be classified as dangerous to the environment

How Green are Recycled Toner Cartridges?

In the EU alone hundreds of millions of empty cartridges are dumped each year. Since July 2005 empty cartridges have been classified as Hazardous Waste, so it is important not only to recycle to save waste, but also to avoid polluting the environment.

It is important to ensure that good quality recycled cartridges are bought, especially if you are using an inkjet printer to produce photographs. Colour control is vital to realistic results.

Description and Pricing

Descriptions are given to distinguish recycled printer ink cartridges by brand. Units are costed for quantities of 10 and 100.

No.1 Specialists in Computer Supplies

As the UK's leading computer supplies distributor, **Orion** has over twenty years' experience in serving a wide range of end users, whether public sector or private, Times Top 100 or a small/medium enterprise, as a contracted or preferred supplier.

Orion understands computer supplies like no other company in the UK. Working in partnership with over 100 manufacturers we supply the UK's largest computer retail chain, the multi-sites of the UK's biggest companies, the many government departments, schools and hospitals and thousands of local businesses.

Whatever your size, **Orion** believes that computer supplies are important enough and valuable enough to your business to warrant a specialist focus.

Environmentally Aware

Orion recognises the need to reduce the carbon footprint of our trading relationships, and has its own programme designed to support the recycling of the products we sell.

Recycling Specialist

Orion has its own programme designed to support the recycling of the products we sell.

Hand It Back has been designed to reduce the waste of valuable raw materials from used printer consumables, be it ink or laser cartridges.

All items returned to our recycling centre are sorted and either used to produce remanufactured product or be recycled.

Environment Specialist

Orion has made it policy to focus our attention on the environmental, social and economic consequences of design, non-renewable material use, manufacturing methods, service, delivery, recycling options, disposal and supplier capabilities throughout our supply chain. We have set up our own plan of action in line with the following key priority areas, which follow the ISO14001 standard criteria.

- Sustainable consumption and production
- Climate change and energy
- Protecting the natural environment
- Creating sustainable communities and a fairer world

Orion will always seek to support your own company environmental policy. We will proactively review policies and procedures to ensure maximum compliance, and work with you to guarantee standards.

Orion supports the environmental policies of all its suppliers and seeks to transact business in a manner consistent with the need to manage and protect our environment.

Being environmentally conscious is more than wishful thinking at **Orion**.

We are currently busy developing a 120 acre conservation area in the Welsh woodlands by re-planting indigenous trees to ensure a greener land-scape for future generations.

Our conservation area is just one of the many activities that form part of our environmental management system and the ISO14001 accreditation.

Every company in the UK is affected by the Environmental Protection Act 1990.

This act requires all organisations to dispose of its waste responsibly.

Working with **Orion** ensures compliance to the requirements of this Act.

Orion seeks to transact business in a manner consistent with the need to manage and protect the environment

Orion offers:

- **100% satisfaction no quibble guarantee on each cartridge**
- **Every cartridge is made to ISO9001 standard and is print tested after assembly**
- **Our tests on page yield and print quality ensure outstanding results every time**
- **All process confirm to ISO14001**
- **Free of charge same day despatch of all your recycled products**

Working together Orion can support your cost reduction and environmental needs every step of the way.

So that we can understand and fulfil all your recycled product requirements.

**No.1 Specialists in
Computer Supplies**

The Image Masters®

afic is the largest independent re-manufacturer of office products in Europe. We are champions for "green" products and are regularly involved in Environmental issues, and are very proud to be included in this catalogue.

afic offers its own manufactured brand of products for IT and stationery. The company is very strong in R&D and in many cases has been able to bring new products into the market first, giving our customers additional benefits.

afic remanufactured cartridges; branded **The Image Masters®** are **guaranteed to provide a level of print quality that is identical to that provided by their OEM equivalent.** This is achieved because, for all laser and most inkjet lines, we only re-use the plastic base unit of each cartridge. This component does not affect print quality at all, but is relatively expensive to produce and has by far the greatest environmental impact if discarded. All other components are **replaced new**, and the toner/ink used is equivalent to the OEM's own product. The result is a product that is of a much-reduced cost, but with **all new print-critical parts.**

All cartridges are tested in the afic production process.

Re-manufacturing prevents the disposal of plastic to landfill, plastic that would take over 100 years to decompose!

Why afic?

- **Strong Account Management and Customer Service**
- **Stock Holding for next day service**
- **Re-manufacturing – the Environmentally Friendly Option**
- **No-Quibble Warranty**
- **Major Cost Savings**
- **3 Decades of Experience**
- **The afic Guarantee – performance identical to or greater than OEM**

We have shown in this section just a few of our hundreds of products with indicative pricing.

The company is unique in holding simultaneously five Quality and Environmental awards namely, ISO9001, ISO9002, ISO14001, Nordic Swan & German Blue Angel.

The Image Masters®

Examples of printer cartridges manufactured by afic that directly protect the environment through the production process. Hand in hand with substantial cost savings, **a major environmental benefit** exists in these products.

The production process has re-used the plastic hopper from a previously once-used unit.

This process has prevented the disposal of 2.5 lbs of plastic to landfill.

afic offer a wide range of toner and ink cartridges for all makes of printer. We have a total focus on Quality and Customer service.

To talk to us about any printer cartridge, please just contact us and mention this catalogue.

Printer	afic Printer Cartridge code	Price(£)* each	Discount per 10	Discount per 100

afic Recycling and Cartridge Collection Scheme

afic has been running recycling schemes very successfully for several years.

As a result of our environmental activities, commitment, and procedures, afic has been accredited with the ISO 14001 Environmental standard and is actively engaged in this and all "green" issues. Afic also holds all other relevant environmental awards.

We are actively involved in raising awareness of all issues associated with re-cycling and re-manufacturing at Government and EU levels. We are a champion for the environment.

To facilitate the smooth and trouble free collection of empties afic already has in place a dedicated account management procedure for any customer covered by this arrangement to follow.

Recycling boxes, bags and labels will be supplied free of charge to any establishment

Please contact afic to arrange for us to supply you with these

- Once the recycling bag is full and ready for collection all you need to do is contact the number below where you will be issued with a returns number
- Please write the returns number on the labels provided and attach to the bag
- afic will then arrange the collection on your behalf free of charge. Toners/Inkjets will be collected within 2 working days

Help the environment, Hand It Back

How it works

Orion provide free of charge collection boxes for your used cartridges. The process for the supply and collection of these boxes is managed entirely by Orion on your behalf – all you have to do is deposit your used products in the boxes we provide.

Orion has made it policy to focus attention on the environmental, social and economic consequences of design, non-renewable material use, manufacturing methods, service, delivery, recycling options, disposal and supplier capabilities.

Hand It Back

The Hand It Back programme reduces the waste of valuable raw materials from used ink and laser cartridges. All items returned to our recycling centre are sorted and either used to produce remanufactured products or forwarded to a recycler. Products that have been returned in a reusable condition can be remanufactured to the same high standards as the original product and go through the product lifecycle again and again.

Where remanufacture is not possible, the product will be forwarded to an appropriate recycler, so that all basic materials can be recovered as either raw materials for further production (such as aluminium), or disposed of with the minimum environmental impact.

To order boxes, phone your account manager and ask for a Kit 1

Kit 1 contains 5 flat packed collection boxes. Let us know once the collection box is full with used cartridges and seal it for safe transit. Phone 01372 747 472 and we will arrange for a mutually convenient pick-up time and collect free within 48 hours of your call.
